

Invitation to EuroTeX 2007

EuroTeX 2007, April 28th until May 2nd, 2007, will be organized jointly by CSTUG, the Czechoslovak TeX Users Group and GUST, the Polish TeX Users Group, at Bachotek, near Brodnica, in the north-east of Poland. This is the place where the annual GUST BachoTeX conferences are organized yearly since 1992. EuroTeX 2007 will also be the XV BachoTeX, hence you might find it referred to as the EuroBachTeX 2007 conference.

We are trying to make it easier for you to get there: if justified by the number of passengers, two EuroTeX busses might be organized: one coming from the south, from the Czech Republic or perhaps even from Hungary, and one from the west, from Holland. For details watch the conference site.

The preliminary motto of the conference is

TeX: Paths to the Future

It seems to be justified by the recent developments which address the current shortcomings of our beloved system. These developments will be presented during the conference and should make it very interesting. In no particular order, they are:

- new pdfTeX release,
- METAPOST v. 1.1,
- a batch of new font families from the new project called TeX Gyre,
- a working version of Omega 2,
- LuaTeX,
- XeTeX, and
- many more.

Watch the conference site:

where you also can find a Google Maps pointer to the conference location. The site is going to be updated as new information becomes available.

Please consider to contribute papers to make EuroBachTeX 2007 even more interesting. Dates for abstracts and paper submissions will be published soon at the conference web page.

And, of course: put this event into your calendar and then come and join the TeXies from around Europe and the world. You can not afford to miss it!
